

The easy step-by-step workflow of the MeghPDS App

With this app, the user can gather information about the Department, the National Food Security Act 2013 and all district and sub-divisional Supply Offices contact details

Overview

An initiative of the National Informatics Centre (NIC) under the Digital India programme, the MeghPDS Mobile App is designed to empower the beneficiaries in educating them about their essential entitlements under the Targeted Public Distribution System (TPDS). This ambitious app enables the consumer to gather information on his/her respective Ration Card and also information on the Fair Price Shop (FPS) to which he/she is to get the monthly allotments of a commodity.

App Functionality

The State Project Management Unit (PMU) of the Food Civil Supplies and Consumer Affairs, Meghalaya has assessed the basic need of a consumer on a pragmatic level. At any location, it is observed that a consumer lacks three (3) critical pieces of information:

- The scheme of the household (AAY, PHH, Non-NFSA)
- Monthly entitlements of the Household
- The FPS from which the household is to receive the entitlements

It is with this understanding that the State Informatics Officer, NIC proposed that the MeghPDS be built and also to come under the umbrella of the Digital India programme.

The MeghPDS app has two functionalities or modules.

Search Fair Price Shops

View the details of all Fair Price Shops available in a particular village

Step 1

Choose the district, block and village (for Urban Areas choose MB/CB/CT/TC) of the FPS

Step 2

View all the Fair Price Shops in the chosen village (rural) or MB/CB/CT/TC (urban)

Search Ration Card

View the details of a Ration Card

Step 1

Input the required RC details

Step 2

View the Ration Card details:

- Head of Family Name Members
- Scheme type
- Monthly Allotment
- Fair Price Shop & Locality
